

An extremely cost effective solution for dry gas applications moving from 200 mcf/d to 1000 mcf/d at pressures up to 1,500 psi.

Gemini Line of Reciprocating Compressors

Hy-Bon Engineering Co., Inc. is an authorized OEM Packager of Gemini reciprocating compressors.

The Hy-Bon Difference:

- *Automated bypass allows precise, consistent back pressure to be maintained on the well and reduces downtime & maintenance*
- *Scrubber arrangement reduces liquid carryover*
- *Automated liquid transfer system dramatically reduces pumper workload*
- *Capable of multiple shutdown settings in NEMA 4, 4X or 7 control panel*
- *Programmable PLC and annunciator with digital LCD readout*
- *Automated restart minimizes pumper callout*
- *Complete parts stocking & service support*
 - ❖ *Optional day tank for oil*
 - ❖ *Custom engineered options available*
